London was a seller here and discounts hardened there. The discount rate was soft in Berlin, however, and the weekly statement of the Imperial Bank of Germany showed the effect of the higher bank discount rate in a cash gain of \$12,555,600, renayment of loans to the amount of \$15,140,000 and a note contraction of \$21,510,000. Sterling exchange at continental points in consequence recovered. The sub-treasury took a considerable sum from the banks here today, thus reversing the recent course of the balances. Money rates, however, were unchanged. The stock market closed rather easy. Realizing in speculative bond issues made the bond market irregular. Total sales, par value, \$7,345,000.

Do you want to be a big. husky man, with vim and power in your every action, with courage, self-confidence and ambition to "do things"? De you want to get rid of that feeling of gloom, that weakness in your back, that nervous, worn-out feeling which unfits you for business or pleasure?

Do you want to feel like a man all over, to hold up your head with the knowledge that you are the man that nature meant you to be?

I don't think the man lives who would not like to feel as big and strong as Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned that strength was only electricity and how I learned to restore it; also I want to teil you that when they came to me they were physical wrecks, and are
